Dear [REDACTED]

In case you did not receive it before, let me draw your attention to the "Brussels International Energy Charter Forum: Mobilising investments for a sustainable energy future" taking place on Friday on our premises.

[REDACTED] (Florence School of Regulation) is among the organisers. The forum will address the challenges related to the Paris Agreement and SDGs in terms of energy investment needs, the necessity of stable conditions to attract investment, states' right to regulate, investment protection and dispute settlement.

You and your staff are most welcome to attend. Please let me know if you would like to attend.

Thanks very much.

Best regards,

[REDACTED]
