## V. Evaluation and incorporation of environmental risks

Environmental risks:	
a) Number/exposure of transactions Category A	<ul style="list-style-type: none"> <li>- pas de projets classés en catégorie A qui sont sous le scope des Common Approaches,</li> <li>- 4 projets classés en catégorie A qui ne sont pas sous le scope des Common Approaches</li> </ul>
b) Number/exposure of transactions Category B	<ul style="list-style-type: none"> <li>- 3 projets classés en catégorie B qui sont sous le scope des Common Approaches</li> <li>- 3 projets classés en catégorie B qui ne sont pas sous le scope des Common Approaches</li> </ul>
How are environmental risks, which can carry other relevant risks, taken into account in the officially supported export credit activities?	<p>Delcredere   Ducroire will review the project on the following cases:</p> <ul style="list-style-type: none"> <li>- if the contract concerns a sensitive sector (with potential negative impacts), even for small transactions (below 10 SDR mio)</li> <li>- if the contract concerns a sensitive area</li> </ul> <p>Classification in A, B of C is done by our environmental specialist. If A, an Environmental Impact and social study is required and if B, strongly recommended.</p> <p>On this base, mitigation measures are studied and implemented. The decision of Delcredere   Ducroire to cover a transaction will be taken only if the project is positive for the economic, environmental and social development of the country. Delcredere   Ducroire can add specific conditions to the contract if necessary. In this case, a monitoring process is required.</p>
