IV. Annual activity report data:

Explanatory note:

"MS shall report, in accordance with their national legislative framework, on assets and liabilities, claims paid and recoveries, new commitments, exposures and premium charges."
From Regulation 1233/2011, Annex 1.

Member States that have more than one ECA should do one single integrated report (reporting obligation is on the Member State as such, not the ECA). Where a MS offers at the same time different types of products (pure cover and direct lending), the reporting under chapter IV should however differentiate.

A) In case of official support is provided in the form of export credit guarantee or insurance ("pure cover") in the sense of Art 5 a 1) OECD Arrangement:²	
Overview of assets	CZK 27,380.8 mil. (approx. EUR 987.6 mil.) Note: Total Assets of EGAP

VI. Evaluation and incorporation of environmental risks

Environmental risks:	Environmental risks are treated as well as social ones in full compliance with the current version of the OECD Council document “Recommendation of the Council on Common Approaches for Officially Supported Export Credits and Environmental and Social Due Diligence”.
a) Number/exposure of transactions Category A	2 in 2014
b) Number/exposure of transactions Category B	3 in 2014
How are environmental risks, which can carry other relevant risks, taken into account in the officially supported export credit activities?	EGAP takes into account all environmental and social risks of the supported project from the beginning of negotiations for the export support. Environmental and social risks are assessed by independent external environmental experts officially certified by the Ministry of Environment. EGAP has to be satisfied that the transaction will be completed in a socially and environmentally responsible manner. ***** In case of export credits granted by CEB and exceptionally not insured by EGAP, CEB takes into account all environmental and social risks of the supported project from the beginning of negotiations.
