Dear Despina and [REDACTED],

I wanted to thank you for the very good meeting on ePrivacy we had a few days ago. Both [REDACTED] and I found it really useful to have an exchange with you on the regulation.

As mentioned during the meeting, I wanted to follow up with a document that explains some of the communication processing that we carry out and that, because of their nature, might require different legal basis than consent. I hope this can clarify some of the issues we discussed.

Best regards,

[REDACTED]
