Dear [REDACTED],

Please find attached the December monthly report on the milk contribution. As you will notice, WFP has started distributions, albeit late, in December. As such, the figures for December are low nonetheless, rest assured that distributions are on-going at the moment. Around 3,500 mt have already arrived in Syria and further 5,000 mt will arrive in January.

WFP is currently putting together a distribution plan for the coming months to ensure the tonnage is distributed within the contract duration using school feeding and GFA modalities. We will keep ECHO informed as we proceed.

All the best and happy new year,
