Dear [REDACTED]

Following internal review, as we need to test the change in the XML file, we are in a position of implementing the change for field AR114 by the end of April.

Best regards

[REDACTED]

Subject: FW: Feedback first experience RMBS Data Template European Datawarehouse

Dear [REDACTED],

Last week, we received this formal request from [REDACTED] to make a small change to the RMBS template regarding field AR114. It would mean removing the ND6 restriction so that Dutch banks would be able to provide data for this field.

Can you assess whether it will be possible for this to be implemented?

Kind regards

[REDACTED]
