Dear [REDACTED], dear [REDACTED]

Please find enclosed an overview of the toolbox. I hopes this will be useful as a starting point for your staff working document.

I will be out of the office from 14h00 and back on 24 November. I will check every now and then my emails, but phone calls will be difficult.

Kind regards,

[REDACTED]

Dear [REDACTED]

thanks a lot again for the interesting discussion on Tuesday as well as your further observations and input!

We look forward to receiving the additional information, as you propose.

Kind regards, and have a nice weekend,

[REDACTED]

Subject: GSE follow-up

Dear [REDACTED] dear [REDACTED]

Again many thanks for the good discussion on Tuesday morning!

Please find enclosed:

- Transmission tariffs paper. This underlines that the fact the entry and exit fees have already been paid and should be taken into account when setting specific transmission tariffs for gas storages. Happy to discuss further how this would work out in specific situations
- Withdrawal curves. I have also worked with Yolanda on the matter, I will contact her as soon as possible to discuss the N-1 issue.

Outstanding issues:

- Overview gas storage related security of supply measures: I am checking with the members if there are any additional comments. I will send by Wednesday a final version
- Biogas: I think it could be interesting to follow this up. As you may remember, our answers were not really to the point on some matters (especially on potential problems with quality of biogas with a view to bacteria). I will try to gather some information on the matter so I can inform you as soon as possible

By the way, I will be out of the office from 12-23 November, so please contact me before the 12th for additional questions. Even if it is last minute, I can try to find someone to find additional information during my absence and I will come back as soon as possible the 23th.

I wish you a good weekend and see you soon!

Kind regards,

[REDACTED]
