

GasNaturally Heating Workshop

Date: Second half of April (date to be defined with DG Energy)

Location: DG Energy or GasNaturally offices (c/o FleishmanHillard)

As the Commission plans a new Heating & Cooling Strategy in 2015, GasNaturally would like to organise a short **two-hour session** with DG Energy in the second half of April. For the event, GasNaturally will arrange for key industry experts to speak to the European Commission and discuss the outlook for heating in Europe and, more specifically, showcase technologies able to save considerable energy and use renewable energies.

We envisage the following indicative programme for the meeting:

Draft Programme

Theme	Description	Duration
Introduction by GasNaturally	Short presentation setting the scene, introducing speakers	5 minutes
Why gas (natural gas and biogas) is necessary to reach the 2020/2050 objectives	Presentation by Delta-Energy & Environment on Heating Market Trends across Europe	20 minutes
Gas, an affordable and efficient heating solution	Overview of new gas solutions for the residential and commercial sector by Carole Lunot, GrDF (TBC)	20 minutes
Heat4U Case Study	<p>Presentation of the EU-funded project Heat4U by Project Coordinator Luigi Tischer (TBC)</p> <p>Heat4U aims at spreading the use of gas heat pumps in existing single-family homes, to reap large energy efficiency benefits.</p>	20 minutes
Q&A	The Q&A could also include an update on the Heating Strategy Development by DG Energy (likely content, timeline, etc)	+/- 30 minutes
