**Subject:** Meeting with Transport and Environment

COM ([redacted]) met with Transport and Environment on 7 June 2018 at their request to discuss the state of play of the UNCITRAL discussions on a multilateral reform of ISDS.

T&E shares the view that the process is moving forward at good pace but has questions on how discussions will be organised under step 3 of the mandate (design of possible solutions to reform of ISDS). T&E underlined the importance that the public opinion angle be duly reflected in the reports of the meetings and expressed certain concerns about regional inter-sessional discussions in relation to the necessary participation of NGOs in the process.

Kind regards,

[redacted]
