Personal data

Dear Ms. Ujupan, Mr. Strotmann and [REDACTED],

cc. [REDACTED]

I am contacting you on behalf of the 5G Automotive Association ([5GAA](#)), the global cross-industry association for connected and autonomous vehicles which gathers more than 50 companies from the automotive and telecom sectors, including many world class car manufacturers.

Following our letter to Vice-President Andrus Ansip and Commissioner Mariya Gabriel on 24 August 2017, we would like to respectfully enquire whether you would be available for a meeting with a 5GAA high-level delegation on 09, 10 or 11 October in Brussels.

We would welcome further dialogue with the European Commission on the EU regulatory framework for connected and automated cars, in particular as regards the foreseen delegated regulation for the provision of C-ITS.

5GAA members are committed to laying the foundation for a 5G automotive future in Europe and in this context we would be most appreciative if you could give a positive consideration to our request.

We would propose following up with your office to identify a convenient time for a meeting.

In the interim, please do not hesitate to contact me via e-mail [REDACTED] or via phone [REDACTED].

Kind regards,  
[REDACTED]
