Subject: EuroCommerce contribution to Single Market Strategy

Dear Mr. Calleja Crepso,

The Commission will be issuing its Single Market strategy later this year, and EuroCommerce has put together a paper as a contribution to the debate on how to make the Single Market work better. As you will see from the paper, which I have the pleasure to attach, our priorities for action are:

1. Better enforcement & application of EU law by Commission & Member States

[REDACTED]

The paper has a short executive summary, and the rest of the paper sets out our recommendations in more detail.

If you require more information we would be delighted to help.

Best regards,

Christian Verschueren
Director-General
