- AmCham EU raised the issue of rules of origin in the auto sector in North America. They flagged that due to the new 75% regional content requirement in the USMCA, many EU firms supplying the US market would now find themselves unable to take advantage of the EU's trade agreements with Mexico and Canada.
- AmCham EU inquired about the possibility that the US would seek to introduce a non-market economy clause in the agreement with the EU — similarly to what they have pushed in the USMCA. [Redacted]
