[Art.4.1(b)] [Art.4.1(b)] - Harley-Davidson Europe (TRN: 568222016448-48) Participant, Requester,

**Main issues discussed**

General discussion with Harley-Davidson on the state of transatlantic trade relations and on US Section 232 measures on steel and aluminium in particular.

The company recognised that the EU's imposition of tariffs on imports of US motorcycles was part of its response to US Section 232 duties on steel and aluminium. It hoped for an early resolution of the dispute so that the EU would be able to lift its rebalancing measures but had no particular solutions to suggest for a credible "off-ramp" for the Administration.

The company was in favour of a broader EU-US trade negotiation, with each side first lifting trade-restrictive measures in place.
