Dear [Name],

I am writing you today to seek the possibility of a meeting with you both about the Pan-European Rule of Origin for Chapter 24. As you might know, a lot of new products are being developed and – as far as my company is concerned – these are manufactured exclusively in EU factories. Many of these products are exported to many destinations, including countries in the Pan-Euro Med zone. The economic value of certain tariff lines in Ch. 24 has increased rapidly, as was shown in Eurostat’s findings.

Many thanks in advance in considering such a meeting.

With best wishes,

Philip Morris International
