Meeting with Equinoccio - EU Policy and Outreach Partnership

Today I met with Equinoccio, at their request, to discuss outreach events in Indonesia related to the FTA/CEPA.

Equinoccio has been contracted under FPI to do carry out the EU Policy and Outreach Partnership programme. For IDN they will organise a business roundtable now on 24 May, and then 2 further media lunches later in the year (we suggested having one just before or after the Sep round). We gave an outline on the FTA, expectations, timelines etc. Equinoccio asked us to think about possible good EU experts to invite for future trade events (they obviously cannot fund participation of EU officials under their programme), we suggested interlocutors from EU industry active in the region may offer useful insight, perhaps more than academics or think tank people from Brussels.

They said they would reach out to our communication people too – I gave them the names of.
