Caro Andrea,

Ahead of our meeting on 15/05, I wanted to ask you whether it would be OK for you and colleagues if a representative of CME Group, a member of the U.S. Chamber of Commerce Center for Capital Markets Competitiveness, joins the meeting.

I look forward to hearing from you.

Best wishes,

Caro [REDACTED],

Good to hear from you.

I remember having met representatives of the US Chamber of Commerce when I was working on the CMU Action Plan. I will be happy to meet them again in my new role. My colleague [REDACTED] who reads in copy can help find a suitable time slot.

Best wishes,

Andrea

The U.S. Chamber of Commerce (the “Chamber”) is the world's largest business federation and it has been interested in, as well as active on EU policy developments for many years. Within the Chamber, the Center for Capital Markets Competitiveness focuses on all issues related to financial services, capital markets, growth and competitiveness.

██████████ will be in Brussels on 14-15 May to meet with key policymakers to discuss various issues, including some with a third country, EU-U.S. angle as regards regulatory cooperation and market access. These include the review of the ESAs, EMIR REFIT, EMIR2/CCP supervision, AIFMD, CMU, common ownership and others.

The Center for Capital Market Competitiveness recently commissioned ██████████, to prepare a policy report on these very issues. We will be happy to share the report with you once it is finalised. We hope that it will prove helpful as policymakers on both sides of the Atlantic consider next steps on key issues which might affect the transatlantic regulatory level playing field.

██████████ would very much appreciate the possibility to discuss with you the above issues, in particular asset management issues, CMU and common ownership, as well as any other topics of interest.

I would very much appreciate if you could let me know if there is a time on 14-15 May that would work for a meeting with you.

Thank you in advance for your consideration of this request.

Best wishes,

██████████
