1. Identifying ethics issues

Please go through the table below and indicate by answering 'YES' or 'NO' if the proposed research has features which gives it an ethical dimension. (Your answer will NOT prejudice the ethics opinion – which depends from the analysis to be carried out further down. For example, if personal data is anonymised, you should answer 'YES', but the proposal will nevertheless get 'ethics clearance' without conditions because the issue is already addressed).

If no 'YES' is/needs to be ticked, immediately proceed to the 'ethics opinion' and give unconditional 'ethics clearance'.¹

Comments on identified ethics issues *(optional)*:

4. Analysis of the ethical dimension

ANALYSIS:

5. Ethics recommendations

 *Ethics recommendations are suggestions and advice provided to the applicant(s); they do not become contractual obligations.*

RECOMMENDATIONS:

Promote gender equality during the implementation process both as to project researchers and also as to participants.

6. Ethics opinion

Please select below the appropriate ethics opinion for this proposal (only one can be selected) and indicate the ethics requirement(s) you consider necessary.

If additional information is needed, request this information (by ticking the first button) before you give your ethics opinion. Once the information is received, the report will be reopened for your ethics opinion.
