Subject: Pulse fishing projects financed by EFF and EMFF - Request for information.

Reference: Letter with reference Ares (2018)362599 dated 22 March 2018

Dear ,

Thank you for your response to our above-mentioned letter and for the information provided.

I would like to ask you some additional information.

First of all, we understand that the proposed categories 3 & 4 could not be split because the projects listed (11 under EFF and 1 under EMFF) included both the technological development of gear and the testing of the developed gear with fishing vessels at sea. Nevertheless, beneficiaries from these two categories should be different and therefore it should be possible to split the support received by fishers and for gear developers. I would therefore kindly ask you to confirm if this interpretation is correct and complete further the table if possible.

Secondly, we have at our disposal a list of vessels having a license to use pulse under Article 14 of Regulation EU 1380/2013 or Article 31 bis of Regulation EU 850/98. We have linked that list with the list of EMFF beneficiaries (Article 97 of Reg. 508/2014) and compiled the table in annex. Could you please complete this table, indicating which vessel received EFF support, for which category (ies) and amounts?

Yours sincerely,

Enclosure: Excel table to be completed
