

7 February 2019

**Ministry of Justice**  
Minister for Home Affairs

Commissioner for Migration,  
Home Affairs and Citizenship  
Dimitris Avramopoulos

Dear Commissioner,

With reference to our notification of 9 January 2019, I would hereby like to inform you that the Swedish Government on 7 February 2019 took the formal decision to reintroduce border control at the Swedish internal border until and including 11 May 2019.

The Government has decided to limit the time of the decision to three months. The scope and the basis for the reintroduction of the control follow the same lines as those given in the notification. Checks will initially take place at the same border sections and border crossing points as today.

Let me again assure you that I remain committed to the goal of returning to a Schengen without internal border control as soon as the circumstances allow.

Yours sincerely,

Mikael Damberg
