

**Meeting between Andrea Beltramello and Confindustria – 29 July 2019**

The main purpose of the meeting was to discuss the Commission priorities on economy and finance, including sustainable finance.

Confindustria believes that the EU should promote the energy transition and the decarbonisation objectives, and keep a leadership role on environmental sustainability at the global level. Investments in energy sources that contribute to decarbonisation are essential.

On Economic and Monetary Union, it is important to create a countercyclical stabilisation instrument to support investment in crisis, and complete the Banking Union in particular by finalising the Commission proposal on the European Deposit Insurance Scheme.
