Subject: Request for assistance and information

Dear [REDACTED]

My name is [REDACTED]

Since quite some time we have been trying to get more information regarding the draft list of the supervisory authority of Bulgaria on the DPIA but with no success. In September last year we saw the Opinion of the Board 3/2018 on the European Data Protection Board but still can not manage to find the original draft list proposed by the Bulgarian supervisory authority.

I would kindly ask for your assistance if it would not be too much of a trouble to help me finding it out. As you know this importation even if it is not final would be very helpful and needed for the whole civil society in Bulgaria.

Thank you in advance.
