Main issues discussed

A meeting was held on 20 March 2019 between COM ██████████ and representatives of ABPA (Brazilian Animal Protein Association).

ABPA reiterated the concerns expressed in their letters of 3 September 2018 and 12 January 2019 in which they argue that the ongoing reform of the EU's system of simultaneous examination for awarding TRQ import licenses would result in quotas not being filled with particular reference to poultry quotas. They refer in particular to the provisions on reference period requirements set out in Article 9 of the draft regulation. They will send written materials to substantiate their concerns including a legal analysis drafted by a law firm.

COM took note of these concerns and welcomed any material that could be provided in writing.
