Dear [redacted]

As this week is very busy with the plenary session, I hope it is fine with you that we look into a meeting some time in January.

Kind regards,

Annukka

Dear Ms Ojala,

May I come back to you on our meeting 'request' for the afternoon of 19DEC2019 – it would be FANTASTIC if you could grant us the possibility for a 20 min exchange on DG SANTE / Green Deal related 'dairy topics' with you / a colleague of yours.

Kiitos & thank you so much & kind regards,

Dear Mr Rossides,

Dear Ms Ojala,

After the inspirational speech of EU COM Stella Kyriakides at the Agri Outlook conference and the presentation of the 'Green Deal' earlier this week, we would like to see with you, if your agenda would allow a meeting with EDA\* (attendees: EDA [redacted], EDA [redacted] health & environment [redacted] and myself), the voice of the milk & dairy processing sector across the Union

**on Thursday, 19DEC2019 in the afternoon (as of 16.00)**

(we have pencilled in a meeting with EU COM Phil Hogan in the Berlaymont

from 15.00 – 15.45)

If I may, we would propose the following points as an 'agenda'

- EU Green Deal / Farm to Fork strategy and the role of dairy
- 'Milk & Dairy – Essential for your life' – dairy & health
- labelling of dairy products in our Single Market

for a 20 – 30 minutes 'high level' exchange with you.

Thank you for considering this meeting request and very kind regards from the EU Commission food standards seminar in Bogotá,

**Subject:** FW: EU Green Deal - EDA press release and communication paper

Dear [Redacted]

Dear [Redacted]

Dear Mr Rossides,

Dear [Redacted],

Tomorrow, the new European Commission will present the 'European Green Deal', the EU flagship initiative with the objective to transform Europe and shape the future of our continent and our industry.

The 'Green Deal' is about more than climate change — it's meant to be a broad response to a host of societal and environmental challenges.

The commitment to a “Farm to Fork” strategy is meant to transform the whole food system: a ‘zero pollution ambition’ aimed at protecting human and environmental health, a new circular economy action plan, a biodiversity strategy for 2030 and a climate law to enshrine the goal of climate-neutrality by 2050 into legislation.

The EDA team in Brussels has worked very hard over the last few weeks on the basis of leaked versions of the EU COM ‘Communication on the European Green Deal’.

I am very proud of the work carried out: we are in a position to publish today the enclosed EDA communication ‘Dairy and the European Green Deal’ - a concise and targeted paper, that mirrors not only our progress so far, but also our ambitions as EU dairy when it comes to the transformation of our industry within a climate neutral Europe 2050.

Please find enclosed our **EDA Press Release** and our **public communication ‘Dairy & the Green Deal’** (15 pages) in the annex.
