Dear [REDACTED],

We will have been in the Berlaymont in the morning, but will likely come from the outside to this meeting.

You will find attached already James' and my details for the security. I will send you the details of Philippe Sauquet shortly.

The following people will attend the meeting:

- Philippe Sauquet, President of Eurogas and President Gas, Renewables & Power, Total
- James Watson, Secretary General Eurogas
- Andreas Guth, Policy Director Eurogas

Best,
Andreas

Dear Andreas,

Ms Margerit would be available at 14:00.

Would that work?

Kindly,

Dear [REDACTED],

Thanks for your response and welcomed suggestion to meet with Ms. Margerit.

Unfortunately, we already have a meeting at 15h00. We still have the following availabilities on the 29th:

- 9h00-9h45
- 12h45-14h45

- After 16h45

Would any of these be suitable?

Best,
Andreas

Dear Dr. Watson,

Thank you for your email requesting to meet with Commissioner Gentiloni on 29 January 2020 in Brussels.

Unfortunately, I regret to inform you that Commissioner Gentiloni will not be available for a meeting. However, he suggests that Ms. Margerit would be available for a short meeting on 29/01 at 15:00.

Would you be so kind and let me know, if that would be suitable to you.

Kind regards,

Subject: Meeting request to discuss the role of gas in the energy transition and the Green Deal

Dear Commissioner,

I am writing to you on behalf of the President of Eurogas, the representative association of the European gas industry, to request a meeting to discuss the Green Deal and the role of gas in Europe's energy mix going forward. Eurogas supports the objectives of the Paris Agreement and the European Commission's long-term vision of a climate neutral economy by 2050.

Philippe Sauquet, President of Eurogas and President Gas, Renewables & Power, Total, will be in Brussels on 29 January. We would very much appreciate the opportunity to discuss the role of gas in the energy transition, and to present our proposals for delivering a carbon neutral economy utilising gas to its full potential.

We look forward to hearing from you.

Best wishes,
Dr. James Watson
