

MEETING CONCLUSIONS

<b>Title</b>	<b>Meeting Kadri Simson with Shell</b> [REDACTED]
<b>Date</b>	14/02/2020
<b>Participants</b>	Ext : [REDACTED] COM: Csr Kadri Simson – Laure Chapuis (Cabinet expert) [REDACTED] [REDACTED]
	<b>Ares initial request : n/a</b>
	Disclosure authorization : <input checked="" type="checkbox"/> YES - <input type="checkbox"/> NO - <input type="checkbox"/> Partial (pls highlight unauthorized parts)
<b>Issues raised &amp; follow-up</b>	<p>[REDACTED] wanted to discuss a series of topics: CCS and Hydrogen</p> <p>[REDACTED] explained the work developed by Shell in providing CO2 offset solutions. He presented the way Shell is looking at solutions to decarbonise the maritime, aviation and road sectors. Decarbonisation of long distance freight and the role of hydrogen. Hydrogen provides long-term solutions for transport.</p> <p>[REDACTED] presented the work done in Canada on CCS and that several other projects are ongoing especially around ports. They are using old gas field to store CO2 which are offshore and the best place for storage.</p> <p>[REDACTED] explained the cooperation that have now started between the industry and some countries.</p> <p>The Commissioner presented the Green Deal and in particular the level of the discussion on hydrogen as a priority for 2020 and the review of the TEN-E regulation planned for the end of 2020. She also explained that the Commission is working on the decarbonisation of gas and that funding for gas projects through EU through EU funds will be received with the TEN-E review of 2020 in line with the aims of the Green Deal</p>
