

## European Round Table for Industry

Ms Kadri Simson  
Commissioner for Energy  
European Commission  
Rue de la Loi 200  
B-1049 Brussels

3 December 2019

Dear Commissioner Simson,

On behalf of the Members of the European Round Table for Industry (ERT), I warmly congratulate you on your appointment as Commissioner for Energy.

As a forum of about 55 CEOs and Chairs of multinational companies with roots in Europe, we are convinced that Europe, led by a strong European Union, has the potential to accelerate sustainable growth, turning (global) challenges into opportunities.

Hereby, access to affordable, secure and clean energy as well as coordinated action between governments, civil society and the private sector will be essential to make Europe climate neutral. In other words, a strong industrial and energy policy are part of the very foundation of the Green Deal.

Therefore, in continuation of the regular dialogue between ERT and your predecessors, the ERT Members propose to meet you for an exchange of views on how we can work together on a safe, secure and sustainable energy supply for Europe.

Our secretariat in Brussels will reach out to your cabinet as soon as possible.

We wish you every success for your term of office.

Yours sincerely,

ERT Committee on Energy Transition & Climate Change  
Titan Cement

European Round Table for Industry (ERT)
