

SUP guidelines and definition of Extended Polystyrene

PlasticsEurope proposal definition expanded polystyrene.pdf

Dear [REDACTED],

In preparation for the guidelines on SUP definitions we have worked with PlasticsEurope experts from the expanded polystyrene sector group who have developed a proposal for the definition of extended polystyrene.

Please find attached the proposed definition.

We would be grateful if this could be considered for inclusion in the guidelines.

Transparency Register identification number: 454264611835-56

PlasticsEurope is one of the leading European trade associations with centres in Brussels, Frankfurt, London, Madrid, Milan and Paris. We are networking with European and national plastics associations and have more than 100 member companies, producing over 90% of all polymers across the EU28 member states plus Norway, Switzerland and Turkey. The European plastics industry makes a significant contribution to the welfare in Europe by enabling innovation, creating quality of life to citizens and facilitating resource efficiency and climate protection. Over 1.6 million people are working in close to 60,000 companies (mainly small and medium sized companies in the converting sector) to create a turnover of more than 360 bn EUR per year. The plastics industry includes polymer producers - represented by PlasticsEurope, converters - represented by EuPC - and machine manufacturers - represented by EUROMAP. For further info see the web links: www.plasticseurope.org, www.plasticsconverters.eu, www.euromap.org
