Subject: Joint letter from companies, cities and civil society on EU vehicle CO2 emission standards and Green Recovery measures
Attachments: Cars CO2 letter_final.pdf

Dear Commission President, Vice-Presidents and Commissioner,

On behalf of a number of EU companies and associations, EU cities and civil society, please find attached a letter on the EU car, van and truck CO2 emission standards, asking not to roll back the vehicle emissions regulations and instead focus on supporting the market for zero emission vehicles as part of the Green Recovery package.

We remain at your disposal for any further questions and thank you in advance for your kind consideration.

With many thanks and kind regards,

--
