Thanks [REDACTED],
Had a rather short meeting in which they expressed their concerns about the proposal. I confirmed that it is on our radar and that colleagues are looking into it but underlined that our relationship is governed by SAA and we can only act if there is a breach.
They will contact you for a meeting>

Kyriacos, between leave, missions and meetings, none of us are available on Monday morning.

Here is the briefing as you suggested.

Out of
scope

Here is, as you asked. Indeed KO is planning legislation. I will raise it with the Ambassador at my meeting on Friday with him. EUO has also raised concerns on, the draft legislation as it might be in breach of the SAA.

Decision-
making
process

Let me know if you need further information and how the meeting goes.

Regards

STATE OF PLAY

- GoK adopted a positive opinion and will now planning on proceed with the draft Law proposal in the Assembly.

Dear Kyriacos,

Please see below the email from my colleagues dealing with excise, setting out a very important issue for the EU industry. Would it be possible to organise a meeting for my colleagues to explain the details? Rather urgent given the timing of the proposal...

Many thanks,

Dear [REDACTED]

The issue is as follows:

A draft initiative on tobacco excise is under discussion by the Government of Kosovo.

The Government proposal contains recommendations to support to the domestic tobacco industry by introducing a new tax structure for tobacco products produced in Kosovo.

This would be the result:

- ? domestic producers of tobacco products would pay only ad valorem excise at the level of 30% of the retail price;
- ? importers pay full specific excise of €45 per thousand

cigarettes (this is half of the EU
minimum rate)

This proposal raises several concerns
given the discriminatory treatment of
the players in the market, creating an
unstable business environment, which is
also against of the EU law. In addition,
this would also negatively impact EU,
given the high potential of illicit trade of
these products.

We understand that it seems that there
is an intention to fast track this law
(approval foreseen for beginning of
October),

Thanks a lot

Best
