Subject: FW: PPE - Masks update RO

Dear Colleagues,

Thank you for your email and well noted on the email delivery address.

Just to clarify, for the first instalment, delivery is expected tomorrow morning. Delivery details were received previously.

The last email for confirmation on delivery address and details is with regards to the second instalment - if you could advise if it remains the same as the first or whether there are new details?

We wait to hear from you and thank you in advance.

Kind regards,

HSC Secretariat

Dear Health Security Committee and Joint Procurement Agreement
Steering Committee,

We would like to advise that the European Commission has been able to purchase 10 million KN95 GB2626-2006 masks to support countries in their response to COVID-19.

The product will be coming from China. It is expected to be available in Europe, depending on logistical capacities, from early May – we are currently finalizing dates with the relevant company. The 10 million masks will come in the instalments of 1.500.000 masks into the EU.

We therefore ask you to undertake the following:

1. Express your needs for these masks. As was presented previously, the Commission will be using the ECDC allocation methodology and, as such, we ask you to complete the attached spreadsheet.

The Commission will then compile and advise the allocations based on the needs that have been expressed by countries.

2. Provide the following information:

- Delivery address with contact person for the goods reception

- Acceptance times and the information whether the warehouse has a truck ramp or whether the trucks with a lifting platform have to be transported - or according to other requirements

3. Provide this information by **14.00 Monday, 20th April**. Due to the delivery requirements, we are strictly not able to process any further requests for this first instalment after this deadline and we also highlight that we cannot proceed with processing any requests without the above information.

We will run this same exercise for each instalment of masks coming into the EU until the 10 million has been completed. Please therefore understand that for this first instalment, it comprises 1.5 million masks, which will be allocated to countries that provide the above mentioned information. Please note that these masks are fully financed by the European Commission and to express your interest in receiving these masks you are currently only required to follow the above mentioned steps. Finally, this offer is parallel, complementary and absolutely not in competition with any ongoing joint procurements.

Regards,

SANTE Joint Procurement Agreement Team
