Subject: FW: PPE - Masks update BG
Categories: To be registered

Dear Colleagues,

As an update, there has been a delay in the arrival of the truck – it is now expected to arrive tomorrow, the 12th of May.

The transporter is in touch with the delivery point of contact for final details.

Kind regards,

HSC Secretariat

Subject: RE: Update on Joint Procurement - Response from BG

Dear Colleagues,

As a latest update:

- Estimated arrival to delivery address in Bulgaria: 11th of May 14.00

The transport company has reached out to the delivery point of contact which was provided to arrange final details.

Any further updates and we will also keep you informed.

Kind regards,

SANTE Joint Procurement Agreement Team

Subject: RE: Update on Joint Procurement - Response from BG

Dear colleagues,

Many thanks for allowing for some additional time, thus accepting also MS that celebrate Easter with the east-orthodox tradition to participate!

Attached please find the data for Bulgaria. We understand that the Commission has opted for using the ECDC distribution key, to which many MS, Bulgaria included, have expressed concerns. Despite that, we would very be very grateful if our actual needs are also taken onboard. This would allow also the medical professionals at the forefront in Bulgaria to be protected, while saving lives.

Best regards,

[REDACTED]

Subject: Re: Update on Joint Procurement

Dear colleagues,

Many thanks for this information!

As you might be aware, with Easter for the east orthodox tradition being today, Monday is a non-working day for 4 EU MS, Bulgaria one among them. Thus will put us at disadvantage compared to the other MS in terms of participation - I can't guarantee that I'll manage to reach my colleagues in Sofia at their homes and get a response on time.

Would it be possible to shift the deadline with one day?

Many thanks for a response in advance!

Best regards,

Subject: Update on Joint Procurement

Dear Health Security Committee and Joint Procurement Agreement Steering Committee,

We would like to advise that the European Commission has been able to purchase 10 million KN95 GB2626-2006 masks to support countries in their response to COVID-19.

The product will be coming from China. It is expected to be available in Europe, depending on logistical capacities, from early May – we are currently finalizing dates with the relevant company. The 10 million masks will come in the instalments of 1.500.000 masks into the EU.

We therefore ask you to undertake the following:

1. Express your needs for these masks. As was presented previously, the Commission will be using the ECDC allocation methodology and, as such, we ask you to complete the attached spreadsheet.

The Commission will then compile and advise the allocations based on the needs that have been expressed by countries.

2. Provide the following information:

- Delivery address with contact person for the goods reception

- Acceptance times and the information whether the warehouse has a truck ramp or whether the trucks with a lifting platform have to be transported - or according to other requirements
- 3. Provide this information by **14.00 Monday, 20th April**. Due to the delivery requirements, we are strictly not able to process any further requests for this first instalment after this deadline and we also highlight that we cannot proceed with processing any requests without the above information.

We will run this same exercise for each instalment of masks coming into the EU until the 10 million has been completed. Please therefore understand that for this first instalment, it comprises 1.5 million masks, which will be allocated to countries that provide the above mentioned information. Please note that these masks are fully financed by the European Commission and to express your interest in receiving these masks you are currently only required to follow the above mentioned steps. Finally, this offer is parallel, complementary and absolutely not in competition with any ongoing joint procurements.

Regards,
[HSC Secretariat](#)
