**Subject:** FW: PPE - Masks Update

Dear Colleagues,

As an update to the delivery schedule:

- Due to a delay in release of cargo, there would have been a delivery for Friday evening. Due to opening hours of the delivery address, delivery of consignment is now expected for Monday the 11th.

Any further updates and we will also keep you informed.

Kind regards,

HSC Secretariat

**Subject:** FW: PPE - Masks Update

Dear Colleagues,

Thank you for your email.

- 54000 masks in 27 cartons. The cargo is loaded in loose, meaning no use of pallets.

Kind regards

**Betreff:** Update on Joint Procurement

Dear Health Security Committee and Joint Procurement Agreement Steering Committee,

We would like to advise that the European Commission has been able to purchase 10 million KN95 GB2626-2006 masks to support countries in their response to COVID-19.

The product will be coming from China. It is expected to be available in Europe, depending on logistical capacities, from early May – we are currently finalizing dates

with the relevant company. The 10 million masks will come in the instalments of 1.500.000 masks into the EU.

We therefore ask you to undertake the following:

1. Express your needs for these masks. As was presented previously, the Commission will be using the ECDC allocation methodology and, as such, we ask you to complete the attached spreadsheet.

The Commission will then compile and advise the allocations based on the needs that have been expressed by countries.

2. Provide the following information:
  - Delivery address with contact person for the goods reception
  - Acceptance times and the information whether the warehouse has a truck ramp or whether the trucks with a lifting platform have to be transported - or according to other requirements
3. Provide this information by **14.00 Monday, 20th April**. Due to the delivery requirements, we are strictly not able to process any further requests for this first instalment after this deadline and we also highlight that we cannot proceed with processing any requests without the above information.

We will run this same exercise for each instalment of masks coming into the EU until the 10 million has been completed. Please therefore understand that for this first instalment, it comprises 1.5 million masks, which will be allocated to countries that provide the above mentioned information. Please note that these masks are fully financed by the European Commission and to express your interest in receiving these masks you are currently only required to follow the above mentioned steps. Finally, this offer is parallel, complementary and absolutely not in competition with any ongoing joint procurements.

Regards,  
HSC Secretariat
