University of Bayreuth	2020-01-21	2020-05-20	Germany	I am writing my master thesis about the limiting factors of TBE spread in Europa. Therefore, I am planning to give an overview of TBE occurrences in Europe for each district / municipality of each country, and then combine these TBE occurrences with climate and geographical data, as well as data on small rodent density to find out which of these factors have (the most) influence on the occurrence of TBE.	
University Medical Center Hamburg-Eppendorf, Institute of Medical Biometry and Epidemiology	2020-03-13	2020-04-29	Germany	We request access to daily data of COVID-19 cases (infections and deaths) by gender and age group for all European countries from 1st of January 2020 until today. With this data, we plan to estimate age-specific case fatality rates for selected countries.	
Linköping University	2020-01-27	2020-02-26	Sweden	Update of a previous project comparing antibiotic consumption in Nordic countries.
