Subject: Hydrogen at the heart of EU recovery strategy – letter of support by the Hydrogen Council

Dear **Executive First Vice-President Timmermans**,

Dear **Commissioner Simson**,

Dear **Commissioner Breton**,

Dear **Commissioner Vălean**,

We are writing to you today on behalf of the Hydrogen Council – a worldwide 80+ strong CEO coalition working to enable the global energy transition through hydrogen – to congratulate you on your willingness to place hydrogen at the heart of the EU's COVID-19 crisis recovery effort.

As we work to rebuild after COVID-19 and see rapid developments across key global markets, there is no doubt that this is the right time for Europe to take a decisive step forward on hydrogen. Working closely with Hydrogen Europe and other relevant European bodies, we stand ready to share our collective expertise to support you in this work, and to mobilise the Council's established coalition of CEOs for the success of the Clean Hydrogen Alliance.

We remain at your disposal for further exchanges to ensure this new dynamic is a success for Europe.
