Subject: Follow-up: proposal for a meeting with ENGIE

Dear Mrs. Tomczak,

It was a pleasure to discuss with you at the event organized by Agora Energiewende this Wednesday.

As mentioned, myself and my colleagues at ENGIE would very much appreciate to meet you at a day and time of your convenience to further discuss the possible decarbonization pathways for 2050 (based on a study done by ENGIE Impact) and / or the specific topic of decarbonizing heating and cooling networks (based on a study conducted by the University of Aalborg), should this be of interest to you.

This could also be an opportunity to share with you what we see as opportunities and priorities for our group in the European Green Deal and receive your feedback on how we can actively contribute to make this strategy a European success story.

Please do not hesitate to contact me for any question you may have.

We look forward to meeting you.

Kind regards,

[REDACTED]
