Subject: WG: LPT once more

Dear [REDACTED],

regarding to the below mentioned laboratory (LPT) we can say the following:

- This laboratory has more than one location/branch establishments in Germany.
- We actually know, that some of this establishments were closed.
- For further/concrete information we've to consult the competent authorities from the respective Länder.

Best regards

Priorität: Hoch

Dear [REDACTED],

I hope everything is fine with you during this pandemic!

Just very quick and short question: concerning the LPT exposé last year, could you please confirm that the laboratory in question was closed by the authorities?

Our Commissioner is meeting with a number of MEPs who are likely to bring this issue up once more.

Therefore, we wanted to have a confirmation from you that the laboratory was indeed closed.

Thanks ever so much for your fast response!

Best regards,
