## Questions about business relationships with the LPT

Dear Sir or Madam,

this questions deals with your institute or your company, either because it was in conjunction with the animal research laboratory I-PT (Laboratory of Pharmacology and Toxicology) in the past or it belongs to a potential customer.

SOKO Tierschutz creates a public list of companies and institutions which are connected to the I-PT. Therefore we would like to ask you to answer the following questions:

- 1 . Does your company or institution maintain business relationship with I-PT (Laboratory of Pharmacology and Toxicology GmbH & Co. KG) or with its branches?
2. Are you planning to establish business relationships with LPT (Laboratory of Pharmacology and Toxicology GmbH & Co. KG) or with its branches?
3. Did your company have business relationships with I-PT (Laboratory of Pharmacology and Toxicology GmbH & Co. KG) or with its branches in the past?
4. How do you evaluate the conditions revealed at the LPT, in particular the manipulation of a study by covering up the death of a monkey and the alleged manipulations of numerous studies at I-PT sites made known by four former employees?

Best regards,

TIEROUÄLER KÖNNEN SICH NICHT VERSTECKEN!
