Dear Madam/Sir,

We refer to the call for tenders for the development, production, priority-purchasing options and supply of COVID-19 Vaccines for EU Member States (referenced SANTE/2020/C3/043), which we received by means of the Invitation to tender letter dated September 9, 2020.

In the aforementioned Invitation to tender letter, it is stated that any request for additional information must be made in writing by e-mail to this e-mail address.

Pfizer is due to be submitting a joint tender on behalf of Pfizer and BioNTech this Saturday. We have several technical questions in this regard:

1. Since it is requested to submit the tender by email, is there a limit on the size of document that the EC can receive via email in terms of maximum MB acceptable?
2. Depending on the size of the document to be submitted, would it be acceptable for a tenderer to use an email app (e.g. kiteworks OR We-transfer) for sending a large file?
3. Would you prefer to receive the tender by one document with all supporting materials incorporated or is it appropriate to submit the tender in one document and the supporting documents and annexes in one zip-file?

Many thanks in advance for any help you can provide.

Best regards.
