Dear [REDACTED] and dear [REDACTED],

Further to our exchanges, I would like to inform you that a measure for import licensing has entered into force today: ***Commission Implementing Regulation (EU) 2021/111 of 29 January 2021 making the exportation of certain products subject to the production of an export authorisation.***

I attach the EN version and the link to access all language versions:
<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A32021R0111&qid=1612026544440>

According to this regulation exports will be authorised by MS through an export license. I would like to stress that a company fulfilling its commitments in the contract will not encounter any issue.

Best regards,
s

Sandra GALLINA
