Confirmed [REDACTED] We are OK with the changes and have accepted accordingly in the attached. From a capacity perspective, early next week would be best for us (vs. today or over the weekend). This would give us some time to organize / ready our internal resources. Also, I am sure that your communications team will be in touch with ours per their discussion but I will give the Novavax comms team a heads up today to let them [REDACTED] launched next week.

Let us know if you need anything else otherwise we will look forward to hearing back!
Best,
[REDACTED]

[REDACTED]

Hi both

Just to confirm that this makes sense to us, so fine with that. Can you confirm you are OK with our changes (if indeed you are?) Would like to put wheels in motion to [REDACTED]

Regards,
[REDACTED]

Hi [REDACTED],

I'll default to [REDACTED] later this morning regarding acceptance of the language (which looks benign to me – should not be an issue – but again, I'll default to him). But let me try to address the highlighted section below in hopes that I actually understood the question (as to whether or not this applied to additional doses):

[REDACTED]

[REDACTED]

Let us know if this makes sense or if we need to have some more conversation. My examples could be missing the mark completely!

Thanks,

[REDACTED]

Dear both

Many thanks for [REDACTED] We have a couple of suggested changes and one question for clarification in the document attached. If you could check these and confirm you are OK with them, and clarify the additional point, that would be very helpful.

Regards,

[REDACTED]
