Subject: Proposal for a DIRECTIVE OF THE EUROPEAN PARLIAMENT AND THE COUNCIL amending Directive 2013/34/EU as regards disclosure of incoming tax information by certain undertaking and branches
- Presidency NOTE on the subject

Delegations will find attached a NOTE from the Presidency for further work in the legislative file Public CBCR
Under Estonian Presidency, the Working Party on Company law convened on three occasions to examine the proposal of public CBCR. The progress made during that period is reflected in Presidency compromise text (doc.13687/17 REV).

The REV document fixes few cross reference mistakes and also changes a part of Art 48c (3) as follows:

“The information shall be attributed to each relevant tax jurisdiction on the basis of the legal presence, the existence of a fixed place of business or of a permanent business activity which, arising from the activities of the group or non-affiliated standalone undertaking, can give rise to income tax liability be subject to income tax in that tax jurisdiction.

Where the activities of several affiliated undertakings can give rise to a tax liability be subject to income tax within a single tax jurisdiction, the information attributed to that tax jurisdiction shall represent the sum of the information relating to such activities of each affiliated undertaking and their branches in that tax jurisdiction.”

This change is intended to address situations where a jurisdiction has corporate income tax rate of zero and therefore no income tax liability can arise.

Due to a number of reservations from delegations, work on the proposal will continue under the Bulgarian Presidency, to whom we wish every success.

The outgoing Estonian Presidency recognizes that one issue, as outlined below, still deserves the attention of delegations.

In WK 12193/2017 INIT, we flagged our concern that the current text of Art 48b(3) makes it very easy for subsidiary undertakings of third countries ultimate parents undertakings to ignore the Directive, as they are required to take action if they are within its scope, but not to take steps to clarify whether that is the case. Consequently, we submitted the following question to delegations:

Should medium-sized and large subsidiary undertakings be first required to ask their third countries ultimate parents undertakings if they are within the scope of the Directive - and possibly report the consolidated revenue of the MNE group (or the fact that they were not given this info) within their financial statements?
However, similar problems also apply to branches. According to latest compromise text, Member States shall apply the rules set out in paragraph 4 of Art 48b to branches only where the criteria described in points (a) and (b) are met.

In the light of Art 48b paragraph (4) and in particular of point (a), delegations are invited to consider:

- if their national authorities would have sufficient information at their disposal to establish whether a branch fulfills the criteria described therein?

- should their national authorities not have sufficient information, should they be able to impose on branches of third country undertakings an obligation to provide additional information, in order to enable adequate enforcement of the proposed Directive?

A drafting proposal from NL delegation, partially addressing this issue, has been received after the Working Party on 14.11 and is in the Annex of this WK document.

***

The Estonian Presidency is extremely grateful for polite and constructive approach of all the delegations, as well as for valuable suggestions we received from you during the last six months.

We also wish to thank the Council Secretariat and Commission services for their impeccable professional support and reliability.

We wish you all a relaxing holiday and a successful New Year!
