**Subject:** Request for a short call

Dear Mrs Scoppio,

I am contacting you with a request for a brief call, regarding the EU ETS State Aid Guidelines on indirect cost compensation.

We are quite concerned that we have not received any feedback from DG Competition. The proposed removal of NACE 20.14 (petrochemicals) from the list of eligible sectors based on the recent analysis carried out by the Commission Consultants was in many ways incomplete/contains margins for error and there are risks of competition distortion where 20.14 is no longer on the list, but its linked value chain are included on this list. With our submissions, together with Cefic, we intended to fill the obvious knowledge gaps and are worried that our evidence might not have been duly recognized.

Kind regards, met vriendelijke groeten,
