Meeting with ACT (app developers association)
Date 06/10/20
Topic: Digital Markets Act
ACT: Werner Stengg,

EC: Werner Stengg,

ACT presented the results of a study on the (importance of the) app economy and stressed that it was crucial to maintain the symbiotic relationship between app stores and app developers.

They stressed that any legal initiative on gatekeeper platforms would have to be future proof, not harm the app ecosystem, and be based on strong evidence of market failure. They argued that the Platform to Business Regulation should be given time to show its effect before any new measures are taken.

The EC representatives took note of these views.
