Minutes for ARES

Meeting with Verisign, 090920

Verisign:
- presented its business model, activities and role in the internet stack
- stressed its limited control over content
- emphasised that its main policy interest was on the DSA and on privacy issues

The Commission:
- took note of their explanations
- stressed that the DSA aims to attribute responsibilities in the light of the nature of the digital services concerned, taking due account of their role and limitations depending on their place in the internet stack.
