Commissioner Breton congratulated Mme Lambert for her appointment at the head of COPA. Mme Lambert recalled their April letter, signalled a difficulty with the October deadline for support to the most affected sectors during COVID, indicated the areas they are following specifically as important for the future of the sector (Farm to fork strategy, Biodiversity). Commissioner Breton invited them to continue the reflection on the role of the sector as regards not just the green transition but also the dimensions of digitisation and of resilience. He attracted their attention on the important role for the modernisation of the sector which will come from the future industrial data platforms, including space data. He also highlighted the important link with the tourism ecosystem
