Dear [REDACTED],
Dear [REDACTED],

Thank you very much for your feedback.

We of course understand the busy schedules these days with amounts of workload ongoing. If we can be of any assistance, for example by contributing as stakeholders to the study concerning the root causes of shortages, we are happy to support. As you might know, our industry is not represented by EFPIA as we are in a very unique situation where our starting materials for medicines in human plasma. We are from time to time forgotten in our niche, if I may say so. However we have 300,000 patients in Europe relying on plasma-derived medicines.

On the other side, I hope I may take the liberty to come back later on, when agendas are more convenient, with an invitation to participate to a PPTA Board meeting.

Kind Regards,
