Dear [REDACTED],

Would 11h on 29 October be convenient for a video call and do you have any preference for the platform to be used?

Thank you and regards,

Dear [REDACTED]

Apologies, this fell between the cracks in a switchover in the Cabinet. If still possible I am confident that [REDACTED] can find a slot that still works on Thursday (late) morning. But let us know.

Apologies again,  
Daniel

Dear Mr Mes,

Thanks in advance for your interest and time. Would Thursday 29 October in the morning be an option? There may be a chance then that other representatives of airlines could dial in too.

Best,

[REDACTED]

Dear [REDACTED]

Could you please indeed see if we can book a slot for this meeting with Airlines for Europe early next week if at all possible in the agenda's of those involved? Let's see what is possible to have a good discussion ultimately of course.

Thank you for reaching out [REDACTED] and apologies for the late reply in these hectic Climate Law weeks.

Best regards  
Daniel

**Subject:** Airlines for Europe - Green Deal / Meeting request

Dear Mr Mes,

Airlines for Europe (A4E) represents the European airlines sector and has been particularly active in the Green Deal (see attached position paper) and its relevant component (review of ETS, ReFuel EU and Sustainable Aviation Fuels, Sustainable Finance, Energy taxation, etc.) In this respect, we are closely assessing the recently published 2030 Climate Target Plan and its impact for air transport.

In parallel, A4E, together with European airports, manufacturers and air navigation service providers is working on a European sustainable aviation roadmap developed by the Koninklijk Nederlands Lucht- en Ruimtevaartcentrum (NLR) and SEO Amsterdam Economics which seeks to define how the aviation ecosystem can contribute to the Green Deal.

It is in this context that A4E would like to explore your availability for a coffee in the coming days and discuss EGD for air transport and the upcoming Mobility Strategy. When would you be available to discuss the above mentioned topic and explore how A4E could more closely align to the work of the GD?

Thanks in advance for your time and interest.

Best wishes,

[REDACTED]
