Subject: hydrogen and oxygen under the Taxonomy Regulation

Dear [REDACTED],

[REDACTED]
[REDACTED], and myself would very much appreciate the opportunity to have a virtual discussion with you in the context of the Commission's draft delegated acts under the Taxonomy Regulation.

Industrial Gases incorporate hydrogen, as well as air gases such as oxygen and nitrogen. We welcome Europe's taxonomy framework as an important step towards a climate-neutral economy, and believe that hydrogen will play a fundamental role in Europe's industrial decarbonization agenda. In this context, we would appreciate the opportunity to exchange views on the delegated acts.

We very much hope a meeting could be possible, and look forward to exploring a date which is convenient over the coming days.

Kind regards,
