Dear Members and Observers of the Member States Expert Group on Sustainable Finance,

We would like to thank you for a great meeting earlier today and for all your very useful inputs. As promised, we are pleased to share with you all presentations from our meeting (please see enclosed). Please, treat all of them as **confidential**.

We would also like to draw your attention, once again, to some of the conclusions of our meeting:

1. We would like to reiterate that the **next MSEG meeting will be on 24th March**. During this meeting Nathan Fabian will present the final advice of the Platform on the financing transition. We will also discuss the revised draft delegated act and the Renewed Sustainable Finance Strategy.
2. We will share with you the **revised version** of the delegated act on climate change mitigation and adaptation **around mid-March**.
3. Regarding the document on **frequently asked questions**, we will share the document for your information shortly, **before it is published**.

Moreover, as requested during the meeting, we would be pleased if you shared with us additional possible **contributions** to **the Renewed Sustainable Finance Strategy**. Insofar as you would like to provide a contribution, please note that the deadline for your contributions is **10th March cob**.

Many thanks for your participation once again.

Wishing you all a great weekend.

Kind Regards,

 for the MSEG Secretariat
