

sustainability issues (taxonomy, SFDR)

Meeting date and place

Meeting held on 18/03/2021 16:00

Participating organisation(s) & representative(s)

Main issues discussed

Insurance Europe explained its concerns on delegated acts and regulatory technical standards under the taxonomy regulation and the SFDR. In particular, Insurance Europe is concerned that investors like insurers become subject to disclosure requirements before the necessary data from investee companies will be available. Furthermore, Insurance Europe is concerned that the taxonomy screening criteria for the insurance sector as regards product design and data sharing will become too rigid and too demanding.
